Town Warrant

STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Newport qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall in said Town of Newport, on the second Tuesday of March next, as nine o'clock in the forenoon, to act upon the following subjects:

Article 1. To elect a Selectman for a term of three years, and a Selectman for a term of two years in place of E. A. Robinson, resigned; to elect a Town Treasurer and a Town Clerk for the ensuing year.

Article 2. To elect a member of the Trust Fund Commission for a term of three years; one Water and Sewer Commissioner for a term of three years; one Cemetery Commissioner for a term of three years; a Collector of Taxes; Road Agent, and all other Officers and Agents necessary for the Town business.

Article 3. To hear the reports of the Selectmen, Town Treasurer, Auditors and other Officers heretofore chosen and pass any vote relating thereto.

Article 4. To raise and appropriate such sums of money as may be necessary for the payment of Town charges, including Town Officers' salaries, and expenses, election and registration expenses, expenses of the Municipal Court, and maintenance of the Town Hall.

Article 5. To see if the Town will instruct the Selectmen to appoint a Police force in Newport, designate the hours of service, and to see what sum of money

the Town will vote to raise and appropriate for the suport of the Fire Department, and to see if the Town will vote to raise and appropriate the sum of \$400, twenty-five per cent of this amount being contributed in addition by the State Forestry Department for the control and extermination of the white pine blister in the town.

Article 6. To see if the Town will vote to raise \$350.00, for State Aid Maintenance, a like amount being contributed by the State Highway Department for the maintenance of the State Aid Road.

Article 7. To see if the Town will vote to raise \$5,300, a like amount being contributed by the State Highway Department for the maintenance of the Trunk Line Roads.

Article 8. To see if the Town will vote to raise \$19,000, a like amount of Federal money being apportioned by the State Highway Department for the construction of the unimproved section of the Claremont Road.

Article 9. To see if the Town will vote to instruct the Selectmen to take from the Road Agent's district the unimproved section of the Claremont Road, and accept the provisions of Chapter 117, Laws of 1917, for the maintenance of said Road, and appropriate the sum of \$200 for this purpose.

Article 10. To raise and appropriate such sums of money as may be necessary for the building and repair of the highways and bridges, and to see if the sum of \$2,500 will be raised and appropriated for the rebuilding of the bridge on the road from Pollards Mills to the Reed school house.

Article 11. To see what sums of money the Town will vote to raise and appropriate for lighting the

streets of Newport, and to see if the Town will vote to extend the Newport Electric Light system at North Newport, authorize the installation of new lights, raise and appropriate the necessary amount of money therefor and pass any vote relating thereto.

Article 12. To see if the Town will vote to raise and appropriate the sum of \$150 to defray the expenses of Memorial Day and pay the same to the Quartermaster of Fred Smythe Post, No. 10, G. A. R.

Article 13. To see what sum of money the Town will vote to raise and appropriate for parks and playgrounds, including a payment of \$325 to the Treasurer of the Newport Cadet Band, providing the Band gives a series of open air concerts during the summer months and also to see if the Town will vote to raise and appropriate an additional sum for the flooding of the Common for skating purposes.

Article 14. To see what sum of money the Town will raise and appropriate for the maintenance of the Sewer system for the ensuing year.

Article 15. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the Town in anticipation of taxes.

Article 16. To see if the Town will allow a discount on taxes paid prior to June 15 and September 1st, fix the amount of such discount and pass any vote relating thereto.

Article 17. To see what sum of money the Town will vote to raise and appropriate toward paying the salary of the Public Health Nurse, and defraying the expenses of the Public Health Nursing Association, and pay the same to the Treasurer of said Association, and pass any vote relating thereto.

Article 18. To raise and appropriate such sums of money as may be necessary for the payment of the

Town debt, and the interest thereon for the year ensuing and pass any vote relating thereto.

Article 19. To see what sum of money the Town will vote to raise and appropriate for the construction and repair of sidewalks and pass any vote relating thereto.

Article 20. To see if the town will vote to ask for State aid in connection with its appropriation for permanent improvements.

Article 21. To see if the Town will vote to purchase a Tractor for use on the highways of the Town.

Article 22. To see if the Town will vote to discontinue a portion of highway commencing on the highway leading from Newport Village to East Unity at an iron pin in the dooryard of premises owned by Billy B. Van and extending south westerly fifteen rods more or less, to an iron pin driven into the ground in the highway extending around Claremont Hill, co-called, and pass any vote in relation thereto.

Article 23. To see if the Town will vote to put in an additional surface sewer from a point on South Main street, westerly to the river and easterly through the land of the Congregational Society to Laurel Street and on Laurel to Woodland Street; the purpose being to drain a portion of South Main Street; a portion of Laurel and Church Streets, and Woodland Street, and prevent the overflow of water coming from these sources and flooding Elm Street and a portion of Main Street north of the Elm Street corner.

Article 24. To see what action the Voters will take in regard to providing a permanent playground in Newport and pass any vote relating thereto.

Article 25. To see what action the Voters will take in regard to the purchase of a suitable site for a

storehouse for housing the implements of the Town, and for building a storehouse thereon.

Article 26. To see if the Town will vote to extend its sewer pipe westward beyond its present limit on Prospect Street, to the house of Mrs. Ada Rawson, a distance of about 75 feet and pass any vote relating thereto.

Article 27. To see what action the Voters of the Town will take in connection with a bequest in the will of Willard C. Burpee, late of Newport, deceased, to the Town of Newport, in trust and pass any vote relating thereto.

Article 28. To transact any other business that may legally come before said meeting.

Given under our hands and seals at Newport this 27th day of February, 1922.

GEO. E. LEWIS, Treasurer

Report of Water Commissioners and Superintendent

To the Citizens of Newport:

The Board of Water Commissioners and Superintendent submit the following report for the fiscal year ending January 31, 1922.

Expended for labor and materials for
construction and maintenance:

Labor

Paid by the Treasurer of the Commissioners

from funds furnished by Selectmen \$1,174.18

Details of labor:

Victor Neimi	734.83
Jalman Kaino	170.43
John Neimi	179.40
John Butterfield	25.00
Leon Colby	13.00
Clarence Blodgett	6.00
Frank Quinn	10.50
Richard Gonyea	7.00
Victor Lanio	3.50
Oscar Pumala	7.00
William Morris	10.50
Gustav Starr	3.50
Imi Eskkola	3.50

\$1,174.18

Materials

Bills approved by the Commissioners and paid
by the Selectmen \$ 2,502.91

Details of materials:

Frank Foster, drawing wood	\$ 8.00
W. S. Darley, dipping needle	17.50
Chadwick Lead Co., lead pipe	25.23
Sumner & Dunbar, pipe and fittings	311.88
Republican Champion, printing	13.95
Lovell Drug Co., book and stationery	2.30
S. E. Osborne, salary	1,000.00
National Meter Co., repairs	1.38
Safford & Fisher, labor	3.75
Argus & Spectator, printing	18.80
Union Meter Co., fittings	17.35
H. O. Heath, auto	18.80
C. M. Quimby, and team	17.60
Ludlow Valve Co., wrenches	6.65
H. H. Chatfield, screens	2.00
Newport Lumber Co., lumber	30.94
S. E. Osborne, auto	69.50
T. I. Farmer, trucking	46.90
Rand, Ball & King, cement	16.25
Gammon Meter Co., meter	9.00
John Neimi, land	200.00
Victor Neimi, auto	65.00
Dan Paul, gravel and team	25.20
Mueller Mfg. Co., tapping mach.,	93.50
F. P. Rowell, cement	85.10
Frank Rogers, sundries	15.07
Rush Chellis, surveying	5.00
Frank Robinson, coal	29.40
S. E. Osborne, office supplies	54.46
S. G. Whitmore, teams	15.50
Silsby & Johnson, fittings and labor	116.90

Sam D. Lewis, rent	30.00
T. L. Barker, salary, commissioner	15.00
P. A. Johnson, salary commissioner	10.00
D. S. Rollins, salary, commissioner	10.00
Town of Unity, taxes	81.00
Newport Electric Light Co., lights	12.00
J. W. Johnson & Son, sundries	2.00

Main. yr. ending Jan. 31, '22	3,346.42	8,755.93
-------------------------------	----------	----------

	\$3,451.59
--	------------

Service pipe has been laid to the following houses: Adella Dudley, South Main St.; Roy Angell, So. Main St.; Ada Rawson, Prospect St.; Wm. Davis, Maple St.; Roy Houghton, Middle St., Nathan Shulinsky, Middle St.; 342 feet 1 $\frac{1}{4}$ inch cement lined pipe and 38 feet of 1 inch cement lined pipe to the house of Roy Truell on North Main St., he doing all labor on trenching at a cost of \$75.25; 44 feet of 1 $\frac{1}{4}$ inch cement lined and 244 feet 1 inch cement lined pipe to the house of Flora Parker on Bradford hill at a cost of \$55.00. The six inch main on Maple street near the Hospital has been lowered to grade of road for a distance of 120 feet at a cost of \$50.00.

Gilman Pond

The Commissioners have this year completed the acquisition of all land adjacent to the pond by the pur-

chase of approximately 500 feet of shore line from Frank Niemi for the sum of \$200.00. Fifty-one days labor has been spent on the shores of the pond cleaning and trimming underbrush.

In order to do away with an inadequate sand bag dam, we have built a new cement dam at the outlet, which will insure another 18 inches in the storage capacity of the pond when full, the cost of which was \$363.

North Newport

Nothing has been laid out on the North Newport system during the year, leaving the cost same as heretofore, \$1,388.04.

Tools and Stock on hand

The equipment in way of tools has been bettered somewhat during the year, and the estimated present value of the same is \$340. We have on hand a reasonable supply of stock to meet normal requirements in way of construction and repairs.

A house to house survey has been made by the Superintendent during the year, and a notation made of all fixtures being supplied with water, and a card index made showing the fixtures installed on the premises of every water taker. This survey, together with a careful estimate by use of meter and otherwise of the amount of water being consumed by water users, has resulted in a material increase in the annual rental. The Commissioners and Superintendent have endeavored to the best of their ability to adjust some inconsistencies in rentals, and to in every way fairly and con-

scientifically arbitrate between the town and the water users.

Respectfully submitted,

T. L. BARKER
P. A. JOHNSON
D. S. ROLLINS

Water Commissioners

S. E. OSBORNE, Supt.

February 1, 1922

Report of Cemetery Commissioners

To the Citizens of Newport:

The Cemetery Commissioners beg to submit the following report for the fiscal year ending January 31, 1922.

Financial Report

Receipts

Balance cash on hand last report	\$ 15.84
Sale of lots Pine Grove Cemetery	876.00
Sale of lots North Newport Extension	67.50

Trustees of Trust Funds:

Income Perpetual Care Fund	
Pine Grove Cemetery	50.49
Income Perpetual Care Fund	
North Newport Extension	10.32
Income Special Care Funds, to cover expenditures	263.66
Selectmen 1921 appropriation	1,200.00
Sundry persons for care of lots	265.00
Sundry persons for extra work on lots and opening graves	455.53
Total	<hr/> \$3,204.44

Disbursements

Paid sundry persons for labor, opening
graves, care and supplies:

Maple street cemetery	\$ 789.84
Pine Grove cemetery	511.66
North Newport cemetery	240.60
North Newport Extension cemetery	152.43
Pine street cemetery	8.00
St. Patrick's cemetery	146.52
Fred T. Pollard, supt., salary 1921	250.00
Miscellaneous expenses and supplies	34.57
Trustees Trust Funds:	
Pine Grove Improvement fund	438.00
North Newport Extension Improvement Fund	33.75
Pine Grove Perpetual Care Fund	438.00
North Newport Extension Perpetual Care Fund	33.75
Balance cash on hand January 31, 1922	127.32
Total	<hr/> \$3,204.44

During the past year the total number of burials in town has been 70, of which four were in the North Newport Extension, 26 in the Pine Grove cemetery and 40 in the Maple street, North Newport and St. Patrick's cemeteries.

You are respectfully referred to the financial report which preceeds, for the amounts received from the sale of lots in the North Newport Extension and the Pine Grove cemeteries and the report of Trustees of

Trust Funds for the improvement and perpetual care funds.

We recommend an appropriation of \$1,200 for the cost of burials and the general care of the cemeteries for the coming year.

Respectfully submitted,

JOHN McCRILLIS

L. D. KEMPTON, Overseer of Poor

Report of Health Officer

To the Board of Selectmen:

Your Health Officer submits the following pertaining to the health and sanitary condition of our town:

On the whole, our town has been remarkably free from contagious diseases. There were, in the past winter and spring, four cases of scarlet fever and three of diphtheria. For a town of our size this is a very good record, and speaks well for the care and watchfulness the people take of their health.

We must not entertain any sense of false security but be on the lookout for any symptoms of the contagious diseases for therein lies the safety of the health of our people.

In analyzing this condition, to our mind, the school nurse and the school physician are the important factors bearing on this situation.

The nurse especially is very watchful for danger signals in the children and at the first indications of sickness the child is sent home instead of being left, a potential means of spreading contagion. In this way the child is given, usually, immediate attention and the other scholars are protected.

The laying of the sewer system on Broadview Heights, during the past summer was a great improvement to that part of our town. We received the cooperation of most all the residents along the system in

seeing that their houses were connected up with the system.

The Federal government in its interest in public health has appropriated sums of money, varying with the size of the state's population to assist in the fight against venereal diseases and their consequences. The first funds advanced are not large and on this account the work done is not extensive as we believe it will be in a short time. It is a step in the right direction and from the good it has done up to this time leads us to be assured that, with larger appropriations greater success is bound to come.

The public health movement throughout the country during the past twenty-five years has been most progressive. In no other field perhaps has such rapid progress in the improvement of human living been made. The single fact that the expectation of life at birth has probably been prolonged ten years, at least, is striking evidence of what has been accomplished. No single discovery has been responsible for this achievement. It has been possible only because throughout this period the public health movement has developed and extended in many directions. For not only has great progress been made toward the solution of specific problems in the field, but the field itself has grown to include many activities which in the beginning were considered quite outside its scope.

Even before the true causes of disease were known, the close association of disease and filth was realized. Men knew that where foul conditions were, there also was disease. Therefore at the beginning of the period public health authorities were concerned with such matters as waste disposal, protection of the water supply, and the elimination of conditions which permit the breeding of insect carriers of disease. Within a few years, by the application of sanitary measures, they

accomplished striking results. Today this particular portion of the field of public health deals largely with routine matters.

Respectfully submitted,

JOHN R. KELLY, Health Officer

Auditors' Report

We, the undersigned, Auditors of the Town of Newport, New Hampshire, hereby certify that we have examined the accounts of the Selectmen, Town Treasurer, Town Clerk, Water Commissioners, Sewer Commissioners, Cemetery Commissioners and Trustees of Trust Funds, for the fiscal year ending January 31, 1922, and find them correctly cast and properly vouched, and showing a balance of cash in the hands of the Town Treasurer of \$11,127.18, and in the hands of the Cemetery Commissioners of \$127.32.

We find the Selectmen have drawn orders
for the payment of the following bonds:

3% Sewer Bonds, Nos. 1 to 38, both inclusive, except Nos. 6 and 8, in all thirty six bonds at \$100.00 each	\$ 3,600.00
3% Water Bonds, Nos. 266 to 465, both inclusive, except Nos. 463 and 464, in all 198 bonds at \$100.00 each	19,800.00
3% Town Bonds, Nos. 1 to 136, both inclusive, in all 136 bonds at \$500.00 each	68,000.00
4% Sewer Bonds, Nos. 673 and 674 at \$500.00 each	1,000.00
4% Highway Bonds, Nos. 666 and 667, at \$500.00 each	1,000.00

4% Bridge Bonds, Nos. 651, 652 and 653, at \$500.00 each	1,500.00
Total	<hr/> \$94,900.00

Also orders for interest coupons to the total amount of \$10,373.00, and we certify that the above mentioned bonds and coupons were destroyed by burning in the presence of two of the Selectmen; namely, Ernest A. Robinson and Frank A. Rogers.

We find the accounts of the Municipal Court in an unsatisfactory condition, with vouchers lacking, and in such shape that we have been unable to audit same, and we recommend that the same be put in shape and submitted to the auditors for the next year at an early date, and the report of the same be included in the next annual report.

R. T. MARTIN
H. D. ANGELL
P. A. JOHNSON

Auditors

Newport, N. H., February 21, 1922.

Report of Fire Department

To the Selectmen of Newport:

During the year ending February 1, 1922, the Department has responded to 12 bell alarms, 26 still alarms and has responded to three calls from out of town.

Value of buildings in which fire originated	\$84,500.00
Insurance on buildings	70,000.00
Damage to buildings	10,380.00
Insurance paid	9,557.00
Value of contents	65,350.00
Insurance on contents	39,000.00
Losses on contents	13,750.00
Insurance paid on contents	13,420.00

The Department is equipped with one steamer, one hose wagon, one hook and ladder truck, motor chemical and hose sleigh, all in good repair, 1,000 feet double jacketed rubber lined hose, 2,200 feet single jacketed rubber lined hose in good servicable condition.

The fire alarm system has been repaired and portions reconstructed so that all lines are in good codition. Two new boxes have been installed, and a register placed in the engine house. Requests continue from the townspeople for an addition to the fire alarm by installing a whistle. We have no facilities in town for the use of a steam gong, as none of our manufacturing plants carry steam enough at all times. For this rea-

son there seems nothing practical except the installation of a compressed air whistle, the cost of which is being investigated. A telephone has been installed at the fire station. Call 320.

The engineers recommend that the station be painted inside and out during the coming year, and that minor repairs be made, and that whenever the finances of the town will permit, the ladder truck be equipped with a motor, in order that it may respond to all alarms.

The Board feels that the town has a very efficient and prompt company, well officered, interested in the organization and free from friction among the members. Thousands of dollars in property, and perhaps some lives have been saved the past year by the presence of the men who have quarters in the engine house, and are able to respond to night calls almost as quickly as professional firemen. No men are kept at the house during the day, and calls to minor fires should be telephoned to one of the engineers.

School Warrant

STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Newport, qualified to vote in District affairs.

You are hereby notified to meet in the Town Hall in said Newport on Saturday, the 4th day of March next, at two o'clock in the afternoon to act upon the following subjects:—

- Art. 1 To choose a Moderator for the ensuing year.
- Art. 2 To choose a Clerk for the ensuing year.
- Art. 3 To choose a member of the School Board for the ensuing three years.
- Art. 4 To choose a member of the School Board for the ensuing year to fill the vacancy caused by the resignation of Francis P. Murphy.
- Art. 5 To choose a Treasurer for the ensuing year.
- Art. 6 To choose Agents, Auditors, and Committees in relation to any subjects embraced in this Warrant.
- Art. 7 To determine and appoint the salaries of the School Board, District Treasurer, District Clerk, Truant Officer, and Census

Officer, and any other officers of the District.

Art. 8 To hear the reports of the School Board, Treasurer, Auditors, Officers, and Committees heretofore chosen, or appointed, and pass any vote relating thereto.

Art. 9 To see if the District will vote to make any alterations in the amount of money called for in the report of the School Board for the support of schools and for the payment of other statutory obligations for the ensuing year.

Art. 10 To see what sums of money the District will vote to raise and appropriate for building and repairing schoolhouses and out-buildings, as the needs of the District may require, provide suitable furniture and apparatus and needful conveniences therefor, and pay for the insurance of property of the District from loss by fire and for expenses of administration, including Superintendent's excess salary, and pass any vote relating thereto.

Art. 11 To see what action the District will take to provide sufficient room for the grades, raise and appropriate money for the same, and pass any vote relating thereto.

Art. 12 To see what sums of money the District will vote to appropriate, or raise and appropriate; towards paying the salary of the Public Health Nurse, and defraying the expenses of the Newport Public Health Nursing Association, and pay the same to the Treasurer of said Association, and pass any vote relating thereto.

Art. 13 To transact any other business that may

legally come before said meeting.

Given under our hands and seals this 15th day of
February, 1922.

CLARENCE D. MOONEY

FRANCIS P. MURPHY

SAMUEL H. EDES

School Board of Newport

School Report

Superintendent's Report

To the School Board of Newport:

I hereby submit my sixth annual report of your schools for your consideration and approval.

General

Our district known as "District Number Forty-three," (43), is one of the largest in the state, both as to the number of miles travelled by the superintendent and to the number of teachers. There are forty-five teachers divided as follows: Newport, 26; Sunapee, 10; Unity, 6; Goshen, 3. The superintendent is supposed to visit each teacher at least once every two or three weeks. Sunapee teachers are visited much more often than any others as Sunapee pays one-fourth of the superintendent's salary and has only one-fifth of the teachers. During the year 1919-20 and 1920-21, or the first two years the District was formed, the superintendent made 1,649 visits; an average of 36 visits per teacher, or a visit to each teacher every two weeks for the two years. Of course some teachers are visited oftener than others as they need much more help, be-

ing young and inexperienced. The superintendent tries to visit where he thinks he can do the most good.

Each year seems to bring with it more, rather than less, for the superintendent to do. He sees each year new possibilities; each year more is being demanded of our schools. Whatever other organizations fail to do the schools are expected to accomplish. The schools must teach, not only the subjects generally known as academic, but also health, cleanliness, manners, thrift, kindness to animals, love of country, town and home.

The superintendent is wholly dependent upon his teachers for his success. If they are loyal and capable, he can accomplish much; if not, he can accomplish but little.

The attitude of the individual members of the School Boards, the parents, and the public as a whole has much to do with the success or failure of the schools. If there is a lack of harmony and cooperation between any of them and the superintendent it is at once felt in the atmosphere and work of the schools. A few schools in the district have accomplished but little this year as well as previous years for one or more of these reasons. I am glad to state, however, that none of these conditions prevail this year in either Sunapee or Newport.

The citizens of any town will finally have just about the kind of schools they insist on having. The members elected to their School Board determine largely the kind of schools they will have as the School Board is the final authority of nearly all school matters. The superintendent is but their executive officer and can do only those things approved by them. Some Boards give the superintendent freedom of action and hold him responsible for results; other Boards give him but little freedom; under the latter conditions, but

little can be done by him and schools will not improve or accomplish much.

Teachers

All of our rural teachers returned at the opening of the fall term. These schools are doing good work.

Only a few changes occurred in our village schools.

In the Primary school Misses Esther Wightman, Jennie P. Lyman and Helen Welch were engaged to fill the positions formerly filled by Misses Esther Dyer, Anna B. Carrigan and Rose G. Bassett respectively.

In the high school Misses Dorothy B. Shand and Rachel R. Bugbee were engaged to fill the positions formerly filled by Misses Melissa A. Cilley and Martha L. Hoitt respectively. Miss Mary E. Donovan has been added to the high school staff on account of the increase in the number of pupils and recitations.

Misses Florence M. Paulsen and Helen E. Fisher were engaged to teach music and drawing, and manuel training and domestic arts, formerly taught by Miss Marston and Mrs. Gove respectively.

There have been no changes in our teaching force since schools opened in the fall except one and substitute teachers to take the places of sick teachers.

Good teachers are still scarce and we feel that we are fortunate to have so large a percentage of them in our corps. We hope to retain them another year.

Improvements Made

Kelleyville—This schoolhouse has had the windows changed to admit the light from the left side and rear of the pupils. A ventilating, jacketed stove has been installed. The underpinning of the building has been taken out, the dirt removed several feet down and rocks and gravel put in and then the underpinning replaced. The house has been painted inside and outside

and concrete doorsteps installed. More blackboards were added.

Northville—Three new windows were added to the east and south sides. Allen shades and fixtures were installed. House was painted in the inside and a part of the outside. More blackboards were added.

Reed—This house was painted in the inside and outside. The windows were changed from the west side to the east side, thus admitting the light from the left side and rear of the pupils. A much needed drain was put into the basements. More blackboards were added. This schoolhouse is one of our most attractive buildings, due partly to its location in a birch and pine grove. Strangers passing by have stopped and asked permission of the teacher to see the inside because the outside was so attractive.

Guild—This house has been painted on the outside and inside downstairs. The old, broken, unsightly blinds have been discarded.

Village—The portable building was painted on the outside. Several minor repairs were made on the other village schoolhouses. A small kitchen has been finished off in the girls playroom in the Primary building. A three-burner oilstove and dishes have been installed. Hot cocoa, soups and broths are cooked to supplement the cold lunches of the children who are obliged to eat their noon lunches at schoolhouse. The children are charged just enough to cover the cost of the raw material. About thirty pupils remain at noon under the supervision of a teacher. Ventilators have been placed in the Citizen hall and Fire Engine schoolhouses that greatly improve the sanitary conditions of these rooms. Wallboard deflectors have been installed in the inlets of the heating and ventilating systems of the

Primary and Richards buildings, thus deflecting the direct cold drafts from the pupils and teachers.

Improvements Needed

Our greatest need is more room for the grades. If the seventh and eighth grades were removed from the Richards building there would then be sufficient room for the high school. We need at once at least four more rooms. Headmaster Wiggin has presented this need very clearly and I refer you to his report which has my full endorsement and approval.

Our next greatest need is about fifty adjustable desks and chairs so that there may be at least one row of adjustable desks and chairs in each room to take care of the children who are either over sized or under sized for the grades they are in. The children are being gradually deformed by sitting in chairs and working at desks that do not fit them.

Play apparatus should be installed in the playgrounds for use the entire year and at least two teachers should be employed during the vacation periods.

Allen shades and holders should be gradually installed until every window that admits sun into a schoolroom is equipped with them. It is by far the best school-shade equipment I have ever seen.

The Primary and Richards buildings need painting on the outside and the Primary building should be thoroughly cleaned, varnished and painted on the inside. The Richards building needs to have the same done to it, but owing to the uncertainty of its future, we do not recommend this at present.

Our High School

The State Department of Education have finally ranked us among the best Secondary schools of the state. Five years ago last fall the Inspector of Second-

ary schools told the writer that were not the superintendent and headmaster both new, they had decided not to approve the Newport high school again until it improved, but as we were both new to the position they had decided to give us a year's trial on a conditional approval. We have succeeded in obtaining their approval.

The reports of the inspectors for the last five years are interesting reading to the superintendent as they show constant improvement.

Our graduates, who attend advanced schools and colleges, are making good and many of them stand well toward the head of their classes. The number who attend post graduate schools increases each year.

The success of any high school depends very largely upon the work done in the grades. It is only when pupils enter the high school well prepared that the school can do efficient work. Much credit should therefore be given the grade teachers as well as the high school teachers.

Although much improvement has been made in the scholastic standing of our schools the greatest improvement, we believe, has been made in the morale of our schools. There exists the very best spirit among pupils, teachers and officials. The language and actions of the pupils have greatly improved so that we now have a wholesome school-atmosphere in which to work and play.

What we have said about the high school is true of the other schools.

Much credit should be given our corps of faithful, hardworking, efficient teachers. Whatever improvements our schools have made are due largely to them.

Standard Tests

Standard Tests have been given in spelling, read-

ing, arithmetic and geography with satisfactory results. In most of the grades we are either up to the standard or beyond them. Other standard tests will be given during the year. These tests have been given to thousands of children throughout the United States, thus being standardized by experts. By using them we can compare our pupils with the pupils of the whole country as well as with each other.

The Otis Intelligence Tests were given last year and two years ago. They aim to measure the native ability of the pupils that the teacher may better know what to expect of each pupil. A rank of 70 per cent for one child may mean a greater effort on his part than rank of 90 per cent does for another child.

These tests aid the teacher to know what to expect of herself and her individual pupils and to be more keenly aware of individual differences. They aid teacher and superintendent to know better what pupils to promote, especially to pick out children of marked ability. They aid the superintendent to measure the efficiency of his school organization and his teachers by checking up the school product with the abilities of the children concerned.

School Nurse

We were unfortunate not to have a school nurse with us the first half of the year. She surely makes a great difference in the efficiency of our schools.

Miss Davis, who has been with us only a few weeks, seems to be doing good work. We have had the pleasure of working with her several terms in Sunapee and know her to be a capable, willing, hardworking and efficient school nurse. We are sure she will be successful as far as her school work is concerned and

are very glad to have her with us in Newport.

The health of the pupils must come first because their success or failure depends largely upon it. We have been very fortunate not to have any epidemics in our village schools this year.

Janitors

Much of the success of our schools depends upon our janitors. Unless the pupils are comfortable they cannot do their best. It is no easy job in this New England climate to keep an overcrowded school room comfortable no matter what the weather may be. Our janitors are faithful, conscientious and hardworking men. Several nights during the winter they have been obliged to stay in the schoolhouses all night to keep the water and steam pipes from freezing and to have the rooms warm when teachers and pupils arrive. They are obliged to make many long days in the winter time.

Nearly all the repair work and a large part of the painting was done by them this year. They do practically all the minor repairs and make many of the smaller improvements such as shelves, book closets, cabinets, etc.

School Board

Much of the success or failure of a superintendent of schools and, to a great extent, the pleasure of his work depends much on his School Board and their attitude towards him and his work.

The School Boards of Newport have always been a great help and inspiration to me in my work. Never have they in any way hampered me in what was of vital concern to the schools, but rather have they given me their hearty cooperation and help. They have given me practically freedom to put into practice those things that seemed to me best for the schools. Their atti-

tude has been, "It is up to you to make good, now go to it." Of course we have not always agreed at first but have finally come to a working point of agreement which is the right way to carry on school work.

It has been a pleasure to work with you, the present School Board. We hope you who are soon to sever your connection with us as members of the Board will still retain your interest in us and our schools.

In closing, I want to thank all who have in any way contributed to the efficiency of our work and the improvement of our schools.

The superintendent in a school system is something like the ham in a ham sandwich, i. e., he is kind of in between and is only a very small part of it.

We have found Newport a delightful town in which to live and District Number Forty-three (43) a pleasant district in which to work.

Very respectfully submitted,

W. H. S. ELLINGWOOD

Supt. of Schools

High School Report

Mr. W. H. S. Ellingwood, Supt. of Schools:

I herewith submit the annual report of the High School for the past year:

The school year ending June 1921 showed a total registration of 125, the total registration for this year to date is 141, an increase of 16 or 13%. At the end of the first half of this school year we have retained in membership 95% of the pupils; last year at this time we had enrolled 94% of the membership. 96% of the undergraduates last June returned to school this fall and 91% of those promoted from the eighth grade entered high school. During the school year 1920-21 we lost 8% of our pupils, the average for the state was 14%. This record of attracting and holding pupils in school is above the average and shows that the school has something worth while to offer and is interesting pupils.

The increase in the size of the school presents a serious problem. Last year we were badly overcrowded and this year we have 13% more pupils. The prospects for next year are that we shall have a school of 150 to 160 pupils. With the present recitation rooms it will be impossible to properly conduct a school of that size. Something must be done to care for our pupils until the new high school building is available. The first part of the fall term we had five classes of over 30 pupils, three of these having over 35 and one

over 40. Our largest recitation rooms were planned for 25 or 30 pupils, and we have only two that will accommodate that number. With conditions as they are our relief lies in increasing the size of our teaching staff and dividing classes to fit the rooms and also providing additional recitation rooms. We lightened our problem this year to a considerable extent by securing an extra teacher in November and thus reducing the classes by division to a size that can be taught efficiently. This policy must be continued next year for we shall have to divide our classes even more because of the increase of the number of pupils in school. We now have eight teachers and only five rooms designed for recitation rooms, including the laboratory. We are using the Main Room as the home room for 99 pupils and making it serve the double purpose of study hall and recitation room. In a school of our size this room should be used exclusively for a study hall. Pupils studying, cannot get the full benefit of their time if a recitation is being conducted in the same room; the class reciting does not progress as it should because part of the teachers time has to be given to the pupils who are studying. Each period of the day there are 35 to 65 pupils studying in this room; three periods we are obliged to use the room for recitations; two of these periods we have classes of over 30 pupils recitating and 50 or 60 pupils studying in the same room. No teacher can instruct a class of 30 pupils and care for 50 more at the same time.

We can secure additional recitation rooms by finishing off a room on the third floor next to Alumni Hall for Domestic Arts work and equipping Alumni Hall with movable chairs with arms for writing. The present kitchen in the basement is not suitable for domestic arts work, either in the high school or the grades. It is too small, poorly lighted, damp and cold. If a proper

room is fitted up on the third floor is can be used for kitchen and sewing room and will also give a suitable room for serving meals and an additional recitation room when not used for domestic arts work. The advantage of fitting up such a room is that it will partially relieve our present congested condition and can be used without any alterations when the building is taken over for the grades. At the present time we are using Alumni Hall for recitation purposes only when obliged to because there is no opportunity for written work there. If movable chairs with arms for writing are installed we can use the room each period in the day.

To fully understand our congested condition it should be realized that the eighth grade, numbering 62 and the seventh grade, numbering 73, are each divided into two sections. This necessitates the use of two of our five high school recitation rooms for these grades for most of the day. It should also be remembered that the high school teachers do the most of the teaching in the eighth grade. If the people of Newport would visit the school and see for themselves the conditions under which we are attempting to train the future citizens of Newport, I am sure that they would make every effort to relieve conditions. A few years under our present conditions means that the pupils sent out from our schools cannot be properly trained. I am confident that there is no citizen of Newport who is willing for our boys and girls to be handicapped in school training while waiting for the new building, but unless some arrangement is made for additional recitation rooms next year the efficiency of the school will be seriously threatened.

Last June we graduated a class of eighteen. One of the boys is at Dartmouth, and one at New Hampshire State college. One of the girls is enrolled at Keene Normal, one at Plymouth Normal and one is

attending the Maryland College for Women. Five of the boys and five of the girls are employed in Newport while the remaining girls are at home. Several of the class plan to go to college or normal school next year.

Last September we had two new teachers, Miss Dorothy B. Shand in English and Miss Rachel R. Bugbee in Domestic Arts. Both are graduates of New Hampshire State college. After the Thanksgiving recess, Miss Mary E. Donovan, an excellent teacher of experience was added to the staff.

At the end of this report will be found two tables, one showing the number of pupils in each class taking the different subjects, and one showing the attendance data for the past nine years. We are making every effort to have our attendance record a high one because the work of the school is seriously handicapped if pupils are tardy and absent and also because the habits of regularity and punctuality formed will carry through life. An employer in asking us to recommend a pupil usually asks, "Is he punctual?" We should receive better cooperation from the parents in the matter of attendance. No boy or girl should be allowed to stay out of school except in the most extreme emergency or because of sickness. The work once lost can never be made up; the material can be gone over but the valuable class room instruction and explanation is lost. The pupils, as a whole, are not doing as much home study as usual this year. Lessons are given out with the expectation that the pupils of average ability will need to study each day from one to two hours out of school, most pupils need the two hours. Many parents are too ready to accept the pupil's statement that he has no studying to do at home; this is rarely the case. If the parents will cooperate with the school in the matter of attendance and will make sure that the pupils study the required time each day at home,

we shall see a considerable improvement in the school work.

The prizes in the annual Fairbanks Prize Speaking Contest were won by Miss Arlene Aiken and Miss Mar-orie Flanagan. Our representative to the Bi-State Prize Speaking Contest at Lebanon was Miss Pauline Johnson of the class of 1921. The Towle Prizes for last year were awarded as follows: Best essay on an American History subject, Miss Annie Lees; best essay on any subject, Miss Aria Cutting; best sight translation in French, Thomas Alexander.

Our athletic work for the past year has been very successful. Our teams have won a considerable number of their games and the financial condition of the athletic association is very good. The most encouraging feature, however, has been the spirit of work, co-operation and fair play shown by the boys. I believe they are learning valuable lessons from their athletics. The credit for our athletics should be given to Sub-master John H. Daniels, who has worked hard and faithfully in the interests of the boys and has instilled them with the right spirit. Our football team last fall was one of the best ever representing the school. The team won all of its eight games, winning the Connecticut Valley League championship and defeating Stevens in the mud on Armistice Day. It seemed advisable not to attempt school basket ball this winter. We have the material for an excellent team but the expense of running basketball is great and with the town team playing home games each week, it is doubtful if expenses could be met. We are running class teams for both boys and girls, playing the games in Alumni Hall and at the Town hall whenever the Newport A. A. plays. Under this system about seventy boys and girls are getting the benefit of basket ball training and exercise. The prospects for good base ball and track teams next

spring are excellent. The public has most loyally supported our athletics during the past year, especially the football team last fall. We wish to assure the townspeople that we appreciate their interest. We shall continue to make our aim the developement of the individual and the spirit of fair play. With these ideals our teams should be a credit to the school and the town.

In conclusion I wish to thank the School Board, Superintendent, Teachers and all who have helped to improve the work of the school.

Respectfully submitted,

JOSEPH A. WIGGIN

Headmaster

School Board

School Budget

The School Board of the School District of the Town of Newport respectfully submit the following estimate of amount of money required to be raised for the support of schools, and for the payment of other statutory obligations for the ensuing year:

Instruction:

Principal's and Teachers' sal.	\$29,000.00	
Evening school teachers	400.00	
Text books	1,200.00	
Scholars supplies	1,100.00	
Flags and appurtenances	30.00	
Other expenses of instruction	170.00	\$31,900.00

Operation and Maintenance of School Plant:

Janitor service	2,500.00	
Fuel	2,029.00	
Water, light and janitor's sup.	400.00	
Minor repairs and expenses	200.00	
Medical inspection and health supervision	300.00	
Transportation of pupils	2,000.00	
Other special activities	150.00	7,579.00
		<hr/>
		\$39,479.00

Total for Support of Schools:

Required by law (\$3.50 per \$1,000)	
on val. of \$4,045,447.00	\$14,159.06

Additional amount needed	25,319.94	\$39,479.00
Other Statutory Requirements:		
Payment of principal debt	\$ 700.00	
Payment of interest on debt	174.00	
State Tax (\$2 per cap.)	1,522.00	\$ 2,396.00

Total amt. needed for support
of schools and other statu-
tory requirements \$41,875.00

The School Board of the School District of the
Town of Newport recommend that the following
amounts be raised and appropriated:

Supt's. excess salary	\$ 550.00	
Expenses of administration	250.00	
Fixed charges;		
Insurance	280.00	
Rent	510.00	
Alterations of old bldgs., and repairs	150.00	
New equipment	200.00	\$1,940.00

The above totals of \$41,875.00 and \$1,940.00 to-
gether with the usual salaries which have been paid
the School Board, District Officers, and Truant Officer,
amounting to \$185.00, make a grand total of \$44,000.00,
which is the estimate of the Board for the entire ex-
penses of the ensuing year.

Respectfully submitted,

CLARENCE D. MOONEY
FRANCIS P. MURPHY
